

## Environmental Policy

Lidoran Group is committed to ensuring the safe re roof, asbestos removal, refurbishment and fit out projects; that ensures environmental safety while ensuring compliance with all relevant Environmental Legislation, Building Codes, Australian Standards, Codes of Practice and with all aspects of our customer's requirements.

This is accomplished through continual improvement of our Environmental Management System and its compliance with the requirements of ISO 14001:2004; to ensure its risk based thinking, effectiveness, continuing suitability and to prevent pollution of the environment, as well as through the monitoring of measurable Environmental objectives based on data analysis and time related goals.
